

every challenge in the entire history of our country. And all we have to decide is that that's what we're going to do. I say again, the young people in this audience will live in the age of greatest possibility in human history. The young people in this audience will be able to do things that people their age a generation before could never have even imagined. But it's like everything in life, it is not free.

And this new age, with all of its benefits, carries significant new challenges. We have to meet the challenges if we want the benefits. We can only do it if we do it together. Based on what I saw today, that's exactly what I believe is going to happen in America.

Thank you, and God bless you.
